

It was a very merry Christmas for the children and families from the Foster Care department

Besides the traditional food, Christmas cake, the decoration of the Christmas tree, we managed to create the traditional ornament for the tree, and this year's ornament was a plastic globe, made of melted wax crayons, and colored flowers attached with needles in a polystyrene globe.

More than this joy and the gifts they received, we wanted to remind our children about the true significance of Christmas. What a great opportunity to celebrate!

Thank you to each and every one of our sponsors who made this possible, and for your year-round support of these incredible children.
