

Winter -Spring 2019

"He will be like a tree planted by streams of water, that produces its fruit in its season, whose leaf also does not with. Whatever he does shall prosper."

Psalms 1:3

Dear Friends and Partners,

Once again we want to honor You-who have offered their time, resources and prayers for our programs during weak and strong times. Every day is a battle field: to raise people from discouragement and deception, to give a hand of help to the poor, to instruct and educate new generations, to pray and cry with those who suffer, to be happy and celebrate blessings. Our emotions are like roller-coasters and in all moments we need to look for God's answer for people's lives. It's beautiful and challenging to see the results our ministry has on people's life and our constant and determined walk into people lives, certainly brings change.

We realize God had a strong sense of humor: He gives us more projects , so we become more busy and preoccupied with serving other people, which stretches our capacity with just a handful of staff.

Winter has started with a busy December and all the celebrations and events we've put on. There was a great turn out at the events and it was a blessing to see many children from the schools excited to come. This year we were able to provide 430 presents to the school and the day center children, and also to some of the poorest families in the local area. Just like every year, we managed to put on 8 parties and for the first time since we started we had help from a local sponsor. This local sponsor (Dan Pharma) was able to provide 100 pairs of boots and 100 goodie bags for the kids which was much appreciated. For the parties we manage to do all the food by ourselves with the help of the two young adult orphans (Ani, Geta). It was lovely to see the family and community atmosphere during this period.

Christmas 2018-Pro Vision

Village ministry-catering, afterschool, tutoring and Christian program

Our continuous projects in schools and our office with in town kids, are going really well and have got good feedback from the schools and children we are currently working with. We now have a 3 level structure to these projects; the first involves Christian based teaching, the next is our formal school education, and third one medical care training program. The medical program was started in March with the help of our sponsor, Livada Sticing Holland Project, which includes teaching young mums how to take care for their infants and providing them with necessities such as milk formula, diapers and doctors to help. We also have doctors from the Perfect Smile Clinic that are going into schools and villages to educate the children on dental hygiene and provide them with free tooth brushes and toothpaste. Due to the healthcare and insurance system here we are currently looking in to setting up a local team of doctors to work with the families in the villages, which is currently done by some doctors from TG-Mures.

Cradle baby program- few young moms from Filitehnic

Dental care-education and treatment

The orphan ministry that has been going on weekly for many years in Reghin, is possibly one of our most challenging projects but has been rewarding as we have seen these young adults lives change as a result. It has been great to see how our teaching has caused them to now view and respond to the difficult situations that come up in their lives differently. For example Elis and her kids, who are still in our care; Elis is now constantly coming to church and her kids come to day care. We believe that that her coming to church regularly has helped her a lot. Her situation has changed since last time as she no long works in the factory but is still doing really well by herself with her 2 kids. She is now actively looking for a new job and she's in a new relationship.

Orphan Ministry-March 2019

In February we had visitors from South Africa and Denmark: Dienie & Andre Kotze and Dax Batelaan. We organized a conference with our local church for leaders from a few strategic parts of Romania and people from local churches. It was a good time to be encouraged personally and in our ministry by our friends. The theme of the conference was God's Kingdom. A lot of Orphans Young adults from our ministry came to the conference and spent a great time for four days.

We have celebrated Easter twice, for Hungarian and Romanian.

Testimony: One of the teenagers which enjoys our program at the office had a shared his experience from a few days ago. On Sunday there was a big explosion of gas in Attila's grandparents' room. Their "house" formed by 2 rooms was connected with the parents' house. Attila was in his room when it happened, and the mother and the grandmother were on the other side of their home. When the fire started, Attila took some wet jackets with him and saved his mom, very courageous action considering the fire was huge. The firemen came but nobody could enter in the house. After that, he tried to get his grandmother and he felt a strong hand pulled him out. His grandmother could not be saved because the roof fell down. The amazing thing is, he testified that all times he felt protected and saved by a strong hand which he understand it was God.

Reason for prayer: -new sponsors for our Christian program in the village schools and Targu-Mures, plus administration budgets (salaries, rent and utilities for office, gas and cars costs); we need finance and prayers more than ever.

-for all areas of our ministry and all people we are working with;

- for Attila's family in the process of building new house, recovering after their loss;

-staff and interns who are ready to come: Sarah Moore is coming for 2 years and Cesar Farias for 3 month;

- summer camp and teams.
