

“RIGHT NOW YOU HAVE THE POWER TO SAY: I WILL NOT LET THEIR STORY
TO END LIKE THIS”

This is what Mrs. Ana did 4 years ago. She changed the life story of two “angels” (as she likes to call them), C and A. About her was yesterday ... since she has taken care of the children, Mrs. Ana, celebrates this every year , the fact that she has these 'angels' in her life. She makes a cake every time, and spends time with the children in a different way compared to other holidays (birthdays, Christmas, etc.), thus conveying to the children that they are important to her and at the same time creating beautiful memories with them. .

On a day like this, we also wanted to celebrate Mrs. Ana and enjoy with the children the 4th year when the story of their life changed.

We are grateful for her, “mother Ana” (as the children call her), for the way she invests in their lives, for the way she educates them and wants to offer them a better future.

There are too few words to thank her, but "Mother Ana" THANK YOU for the beautiful example you give us, for your heart full of kindness and dedication!
